LONGBOARDS

TIDE MOMENT

ITK

Longboard · EPS · Thruster

Level: Beginner to Intermediate

The ITK sits at the balance point between classic and modern longboarding. A generous nose outline and smooth entry rocker make paddling and take-offs feel easy and natural, while the wide, parallel outline running through the middle provides plenty of lift and stability for noseriding. Unlike heavy, traditional noseriders, its narrower, more modern tail keeps the board lively and responsive on the wave face.

TIDE MOMENT

X One

Longboard · PU / EPS · Single fin

Level: Beginner to Intermediate

A longboard that doesn't demand perfect technique to be enjoyed. Whether it's your first successful hang five or a longer hang ten, the X One makes it all come easier. Stable without feeling sluggish, classic without being conservative — single-fin glide at its most charming.
